## KNOWN TECHNOLOGIES

### FRONTEND DEVELOPMENT

I am proficient in HTML, CSS, JavaScript, and React. From structuring content with HTML to designing captivating user interfaces using CSS, adding interactivity with JavaScript, and building dynamic applications with React, I have a deep understanding of the full web development stack

### BACKEND DEVELOPMENT

My backend development expertise centers on Spring Boot, Java, and RESTful API design. I harness Spring Boot's power to create scalable server-side applications. Crafting RESTful endpoints, ensuring security, and optimizing databases are my strengths. I deliver reliable backend solutions for digital projects

### DEVELOPMENT AND TESTING

I'm deeply passionate about Java's versatility and power. I excel in writing efficient, and industry-standard Java code. My Java skills enable me to tackle complex projects with confidence, and I'm always eager to explore new Java technologies to stay at the forefront of this dynamic ecosystem. Also well versed in selenium-java.

### CLOUD

I'm skilled in AWS and Google Cloud, adept at deploying scalable web applications, optimizing resources, and leveraging cloud services for data storage and machine learning. My expertise ensures efficient, secure, and cost-effective cloud solutions
